Subject: Stormwater meeting tomorrow?
Date: 11/27/2006 07:12 PM

Hi all -

there is some confusion about the meeting tomorrow. I was under the impression that it was a technical session from 10 - 1 and then a management session from 1 - 3. But looking back at other email I think I might have gotten this timing confused with another meeting.

I too can meet on the 28th. I do think it would be worthwhile for the technical folks to get together prior to the management team meeting to finalize their recommendation(s) to the management team.

Keith - I checked my calendar and spoke with Chip and here is what we propose...

I will draft a process and schedule for the technical team review by Nov 20th. All comments will be due by Nov. 26 so that I can assimilate them on Nov. 27 and send out to the managers. A managers meeting would then be held on the afternoon of Nov. 28th.

Does this work for everyone?

RE: Meeting notes from 10/8
Sampling Methodology Workgroup

I suggest the Kristine could assemble a draft timeline for the workgroup, get comments via email or a conf call, then submit that for manager's to review on the week of the 20th or 27th at the latest.

Kristine, does this seem reasonable?

Keith

Thanks, Kristine and Karen--and all who are working on this important effort. One thing that strikes me is the timing of the work. I think it will be important to meet again much sooner than the 28th in order to provide the managers with material they can use for further conversations on the next steps forward. I hope there is a way to push this farther and faster. Thanks again for the good efforts.

Karen - Thank again for setting up this meeting. I think that it was very productive and we got a long way in the process! I'll work on this

(b) (6)

All - Let me know if there is anything you would like for me to add/consider/contemplate in adding to this by early next week. I suggest that we get back together the last week of Nov (when Karen returns) to finalize something to submit to the Managers. I suggest the afternoon of 11/28 since I'll already be in Portland for a meeting in the morning. Let me know if that works for you.

Meeting notes from 10/8 Sampling
Methodology Workgroup

Thanks to all for a very collegial and productive discussion yesterday! Special thanks to Nicole and crew for providing us with a robust sampling plan to fuel our discussion, and to Kristine for volunteering to take the lead on this effort during my absence.

As you'll see from the notes, we covered a lot of ground but also have a bit of work to do. Since we did not talk about a timetable at the meeting, I suggest that Kristine propose a schedule and communicate with the group about next steps.

Thanks - see you at the end of the month.

Karen
